

Screenshot of a browser window showing the Flexbox Froggy game interface. The title bar shows multiple tabs, including "flexboxfroggy.com/#es".

The main content area displays the "FLEXBOX FROGGY" game. It shows a green pond where three frogs are swimming. The task is to help the frogs find lily pads using CSS properties: `flex-direction`, `justify-content`, and `align-items`.

A code editor on the left shows the following CSS code:

```
1 #pond {  
2   display: flex;  
3   flex-direction: row-reverse;  
4   justify-content: center;  
5   align-items: flex-end;  
6 }  
7  
8  
9  
10
```

A red button labeled "Siguiente" (Next) is visible at the bottom right of the code editor.

Below the code editor, there's a note: "Flexbox Froggy es una creación de [Codepiper](#) • [GitHub](#) • [Twitter](#) • [Settings](#)".

At the bottom of the screen, the Windows taskbar shows various pinned icons and the system tray with the date and time (02:14 p. m. 05/08/2022).
